

***Oral Surgery Associates of Colorado Springs***

Patient's Name [print]: \_\_\_\_\_

Social Security Number: \_\_\_\_\_

Oral Surgery Associates does not participate in the Medicare program because:

- Most dental services, including oral surgery, are not a covered benefit;
- Medicare provides very low payments for the few oral surgery services covered;
- Medicare delays in claims processing and payments are excessive.

**Oral Surgery Associates does provide its services to Medicare eligible patients.** However, Medicare requires its insured persons to enter into a "private contract" with providers who are not contracted with Medicare – please read to the Medicare Publication 10109 copied on the reverse side of this sheet. Therefore, if you choose to have an Oral Surgery Associates' surgeon provide service to you, we must enter into the "private contract" below.

***Financial Policy:*** Oral Surgery Associates provides a "senior discount" to patients who pay in full their account balance at the time of service. As an alternative, Oral Surgery Associates provides its patients with a payment plan for service fees that exceed \$300.

<b><i>Private Contract</i></b>
--------------------------------

<p>This contract is between Oral Surgery Associates and the above named patient. Oral surgery services will be provided according to the treatment plan agreed upon between the Oral Surgery Associates' surgeon and the patient (or her/his legal representative). Oral Surgery Associates will charge its established fees for these services. Payment by the patient will be in accordance with the "financial policy" stated above. To signify agreement with these terms, the patient, or her/his legal representative, have signed below.</p>
